P-Compact ICS

Compact ICS Integrated System

DESCRIPTION

- Integrated Communication System designed for internal/external 2-way communication.
- The system is optimized for IMO/Solas requirements on both small and medium sized marine vessels.
- IP-22 Rating
- Capacity: 72 lines or 24 Lines + 24 VoIP
- Dual power supply: AC/DC or AC/AC

The flexible configuration of the Compact ICS provides a cost effective solution for intercom, telephone, Public Address and loudhailing. The modern architecture offers network connection including cascading, remote service and interface to/from other IP based systems and components. The Compact ICS system is compatible with all existing intercom stations and offers a unique combination of analog, digital and IP based communication terminals. By adding the ICS P-6202 Billing Unit, logging and billing of calls are trackable using PIN and extension registration.
